Dear Brothers and Sisters:

Thank you for the petitions you sent with hundreds of signatures asking for the support of the Major League Baseball Players Association in your fight to ensure that the work you do stays in Easton, Pennsylvania. It was inspiring to see the solidarity you showed in that effort and, more important, to see the resolve you are showing in everything you are doing to protect your jobs and your future.

Our members are proud to wear the uniforms you sew and distribute for them as they go about their jobs on the baseball field. We are extremely pleased that these uniforms are made in this country by workers like you who, like us, are part of a labor union that negotiates the terms and conditions of their employment sitting across the table from management as equals under the law.

The MLBPA is closely following the efforts of VF to sell its Licensed Sports Group operation, and we will be proud to use whatever influence we have towards making sure that your jobs, the jobs that sustain your families and protect your futures, stay in Pennsylvania and under a union contract.

Because you literally put the shirts on our backs, the members of the MLBPA consider you to be a part of our extended baseball family. What you do every day during the season contributes mightily to the fans' experience and therefore to the success of Major League Baseball.

I wish you the best of luck in your negotiations, and thanks again for all you do for our Players.

In solidarity,

Tony Clark
